

PPS KEEPSAFE™ OPTICAL TAG

Innovative New
Keepsafe™
Eyewear Protection!

Allows customer to try on without impacting visual

Easily fits in almost any eyewear display or rack

Safely and snugly fits on any size ear piece

Reusable and easy to attach/detach

Locks into place by turning outer piece until secure - No tools required

The PPS Keepsafe™ Optical tag is an ideal security device for all types of eyewear including sunglasses, readers, and traditional glasses. The unique toolless design ratchets safely onto the ear piece and magnetically locks into place. The compact size and placement allows customers to try on eyewear without impeding on the visual. The Keepsafe™ Optical tag integrates with existing RF, AM or RFID systems and is available with either standard or super locks. Optical tags are available in black, white or can be customizable with certain order quantities.

General Use and Application

- Does not require tool to attach
- Locks easily into place with a magnet
- Protective layer will not damage ear piece
- For use on all types of eyewear
