

KEEPSAFE™ BLISTER TAG

The PPS Keepsafe™ Blister Tag is an ideal security device that allows you to protect those products traditionally hung on peg hooks without taking up additional shelf space. The unique design enables retailers to utilize existing blister holes. The blister tag integrates with existing RF or AM EAS systems with either standard or super locks. Blister tags can be produced in black or white.

General Use and Application

- Products merchandised on peg hooks
- High shrink items that may not be protected by a safer due to product size, position or merchandising
- Integrates with existing RF and AM EAS systems.
